One-at-a-time sensitivity of phase objectives
A Acetate uptake cap
PHA accumulation (arbitrary units)
Acetate uptake cap (arbitrary units)
B Poly-P reserve cap
Infeasible at cap = 0
PHA accumulation (arbitrary units)
Poly-P reserve cap (arbitrary units)
C Glycogen reserve cap
PHA accumulation (arbitrary units)
Glycogen reserve cap (arbitrary units)
D Oxygen uptake cap
Infeasible at cap = 0
Poly-P accumulation (arbitrary units)
Oxygen uptake cap (arbitrary units)
E ATP maintenance demand
PHA accumulation (arbitrary units)
ATP maintenance demand (arbitrary units)
F ATP maintenance demand
Poly-P accumulation (arbitrary units)
ATP maintenance demand (arbitrary units)
